TECHNICAL SKILLS

Languages: C++, JavaScript, C
Web Technologies and Database: HTML, CSS, Tailwind CSS, ReactJs, Redux, NodeJs, ExpressJs, NextJs, MYSQL, MongoDB, Firebase, TypeScript, Wordpress, PHP
Core Subject: Operating System, Computer Networking, DBMS, OOP
Developer Tools and Technologies: VS Code, Firebase hosting, Git, Github, Vercel

PROJECTS

Blogify | *MongoDB, Node.js, Express.js, EJS, Multer, JWT, Bcrypt, Git*

- Created a full-stack blog application with user-friendly interfaces and dynamic content rendering.
- Implemented secure user authentication with **Bcrypt** for password hashing and **JWT** for session management , **enhancing security by 50%** .
- Enabled users to post blogs, like posts, and **securely log in and out**.
- Integrated **Multer** for **file uploads**, allowing image uploads in blog posts.

BookCart | *React, tailwindCss, mongoDB, Git*

- Developed a todo application using React, demonstrating expertise in frontend development and state management.
- Implemented features for task creation, deletion, and status tracking, enhancing user productivity and experience.
- Utilized modern React concepts such as hooks and context API to efficiently manage application state and components.
- Ensured responsive design and accessibility standards, optimizing usability across different devices and user needs.

Duo Chat | *Nodejs, Expressjs, Reactjs, MongoDB, Git*

- Conceptualized and developed IdeaGram, a real-time idea sharing platform utilizing Firebase for secure user authentication and data storage.
- Implemented features for users to create, share, and view ideas dynamically, fostering collaboration and creativity among participants.
- Integrated Firebase's real-time database to ensure instant updates and
- Designed a responsive and intuitive user interface, prioritizing usability and accessibility while adhering to modern web design principles.

Animax | *ReactJs, Firebase, GSAP*

- Created an engaging animated website using GSAP, showcasing advanced skills in frontend animation and interactivity
- Implemented smooth transitions, scroll animations, and interactive elements to enhance user engagement and site dynamics.
- Leveraged GSAP's timeline and easing functions to synchronize complex animations and ensure a seamless user experience.
- Optimized animations for performance, achieving fluid motion and visual appeal while maintaining site responsiveness and accessibility standards.

ACHIEVEMENTS

- Secured a **global rank** of **316** out of **18000+ particpants** in Starter 78 on **CodeChef**.
- SemiFinalist in **SIH 2023**.
- Earned **7 badges** on **LeetCode**.
- Solved **400+** Problems on **LeetCode** and Best **Rating 1467**.
- Solved **150+** Problems on **CodeChef** and Best **Rating 1527** with **2 star rating**.

EDUCATION

Greater Noida Institue of Technology, Greater Noida   October 2021 – June 2025
Bachelor of Technology in Compter Science
DAV Public School   2019 – 2021
Intermediate
